Elegant flat pack racks
less carbon footprint

GÜNKO

Green advantages of fat pack

Do not forget your environmental responsibility

Compared to pre-assemble products flat pack rack cabinets is more environmentally conscious and it cuts down on size, which cuts down on shipping costs and also reduces the carbon footprint for a green Nature environment.

CO²

Elegant flat pack Rack cabinets enables consumers to assemble a product themselves with a manual instruction, saving significant amounts of money for the customers by reducing shipping and storage costs and for the consumers it offers an easier shape / size to carry.

You can not change the structure of the buildings but you can order Flat pack Elegant rack (all in 1 pack)
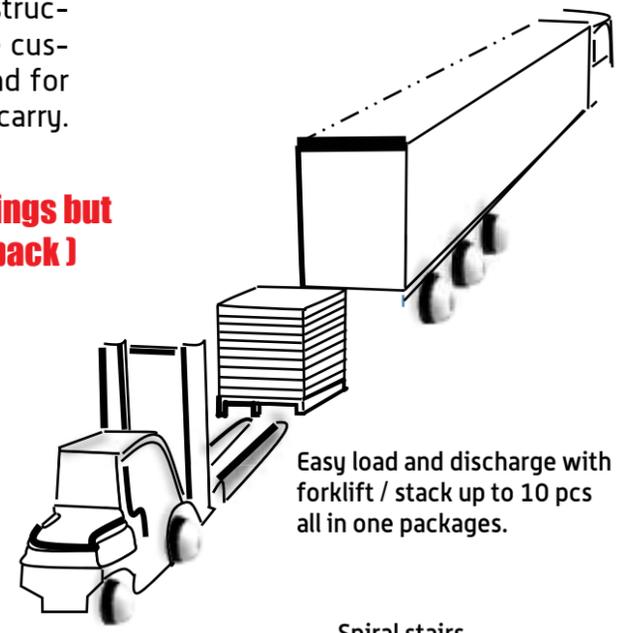

Easy transportation for retail customers

Easy load and discharge with forklift / stack up to 10 pcs all in one packages.

Door / Elevator

Thanks to Flat pack construction it is possible to bring them also into places with difficult access, e.g. basement or attic, narrow door-openings or spiral stairs.
